Denise KHALIFE SALAMEH

min.Beirut,  
a collection that reflects the unconditional love I have for my city!

Designs were inspired from the soul of Beirut, its wide mixity and contrasts,  
In respect of the Manifesto I embrace whenever I create an object that is  
dedicated to my fellow humans.  
min.Beirut is executed with Lebanese hands of skilled crafts people using local  
and traditional raw materials.

## manifesto

### The Creators:

Be Idealistic, bold & radical in shaping the future.  
Realize projects that feed your soul & push the envelope  
for a better world because a creator has a responsibility  
towards his society.  
It is Designers that can lead to a change of mentalities.  
Remember, they are the link between users & producers!

### The Inspiration:

Create something that matters, from the Heart,  
with Love to Humans.  
Get the Inspiration from "L'air du temps" in intense  
tuning with the real world yet in respect for Belonging,  
Identity and Moral Values

### The rise of Art & Craftsmanship:

Head for Self-sufficiency, Sustainability & Authenticity  
Be conscious of Cultural & historical awareness  
Expand the limits of textures while respecting your nature.

### The will:

Making the best quality accessible to many humans  
based on the intimate mingle of cultural  
perception, social engagement & economic return.  
First, reassess the priorities and then, have the courage  
to create, take the opportunity, rise up,  
and be a support to your country!
